DETAILED ACTION

The previous office action dated 6-5-07 was vacated to allow for the corrected action presented below.

Reconstruction completed

1. Reconstruction of this application has been completed and this application is now an electronic application review-able by applicant on PAIR. Please indicate any problems regarding missing papers no later than the response to the office action presented below.

Response to Arguments in Appeal brief

2. Applicant's arguments, see appeal brief, filed 2-3-04, with respect to claims rejected have been fully considered and are persuasive. All rejections of the previous office action have been withdrawn. The appeal filed 2-3-04 is considered moot.

Election/Restrictions

3. As response to petition filed 2-3-04, claims previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104. The petition filed 2-3-04 is considered moot.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 5-30-03 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

4 Claims 1-22 are allowed. A mandatory search is being conducted to determine whether the application is in condition for allowance for second level review.

Conclusion

5. This application is in condition for allowance except for the following formal matters:

- a). A complete claim set is required for allowance purposes.

b) New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because allowable subject matter has been indicated. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance. The drawings filed 4-23-1999 were objected to by the Chief Draftsman on 5-30-01 and 11-27-01.

c) The disclosure is objected to because of the following informalities: the specification on page 1 describes applications not fully identified. Please check the specification for any modifications desired before a notice of allowance is issued. Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

6. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
